National Action Plan for Open Research 2022-2030

Ireland's *National Action Plan for Open Research 2022-2030* sets out a vision, objectives and actions for the next chapter of Ireland's transition towards Open Research, following the earlier *National Framework on the Transition to an Open Research Environment* (2019). The development of the action plan was led by NORF with direct input from over 90 stakeholder representatives and further input via public and targeted consultations.

The action plan has three overarching themes and objectives:

- Establishing a culture of open research
- Achieving 100% open access to research publications
- Enabling FAIR research data and other outputs

“Open research requires collective action. The transition to a national open research environment is a shared responsibility across the research system, with local efforts required to implement policies, infrastructure and incentives within research performing and research funding organisations.”

Why is an Irish National PID strategy needed?

Action	Description	Key stakeholders	Timeline
A4.4 Invest in Persistent Identifier infrastructure to enable consistent monitoring and improve interoperability.	A4.4.1 Support the Irish ORCID Consortium and encourage further development and adoption of ORCID according to international best practice by researchers and within the systems and processes of publishers, research performing organisations, research funding organisations, and infrastructures. ³⁴	NORF, RPOs, RFOs, research infrastructures (e.g. IReL)	Ongoing
	A4.4.2 Develop a national roadmap for the adoption of a range of Persistent Identifiers according to international best practice, such as ORCID, DOIs, RAiDs and ROR identifiers. Implement this roadmap to consolidate national coordination and accelerate the uptake and integration of priority identifiers.	NORF, RPOs, RFOs, research infrastructures (e.g. IReL)	2023-27

Impact
2030

Developing an Irish National PID strategy

Why?

- Supports implementation of Ireland's National Action Plan for Open Research 2022-30

What?

- Cost benefit analysis of persistent identifier (PID) adoption in Ireland
- National PID Strategy Roadmap for Ireland

Who?

- MoreBrains Cooperative
- NORF and its PID Task Force
- Irish research stakeholders

When?

- Project runs from October 2023 - July 2024

How?

- **Inclusive** – community consultations
- **Evidence-based** – data gathering and analysis
- **Transparent** – openly available outputs
